

J.A.K. AUDIO EL MAR *MODULATION* MIC PREAMP

Get a Mic Preamp, DI, Filter, VCA, FET or Optical Compressor, a Tape head, Delay, Reverb, channel strip or any other FX and all in one unit! It's not magic...

J.A.K. Audio EL MAR,
The quality of a Great value Mic preamp.

THE VCA THAT REDEFINES RECORDING.

Do you want the power of a classic optical, valve or FET compressor? Or the magic of a classic EQ, tape compression, delay or reverb? **NOW YOU CAN!!!** With its innovative sidechain input, the VCA integrates seamlessly with your DAW, translating your plugin settings into dynamic volume changes in real time, allowing the preamp to record with the dynamics or frequency response of your DAW plugins.

Experience unmatched clarity with the J.A.K. AUDIO EL MAR preamp, featuring Class A topology. Perfect for condenser, ribbon, and dynamic microphones, its balanced input ensures transparent recordings every time. The dedicated DI input enhances your instrument's sound, while the HPF filter lets you shape your perfect tone. Bring your recordings to the next level with J.A.K. AUDIO EL MAR.
